and

Whereas air travel has been greatly impacted by the worldwide labour shortage and has had a negative effect on access into and around the north.

Whereas consistency and reliability of schedule into and within the north is crucial to planning and selling future business for NWT Tourism members; and

Whereas carrying capacities and consistency of delivery of cargo and baggage is of utmost importance to the NWT Tourism businesses to enable their guests a successful experience while visiting the NWT.

Be it resolved that NWT Tourism continue to advocate to the airlines for increased access to and within the north, that the flight schedules be consistent and reliable and meet the needs of the tourism sector, that airlines recognize the impact their schedules have on tourism businesses and work with the industry when changes to long standing schedules are required, and that the planes flying into the north have the ability, and the consistency, to bring the cargo and baggage required for guests visiting the NWT.
